How do we use your information?

If your household enters a new social housing tenancy or purchases a social housing property, social housing providers will share your personal information with the Department for Levelling Up, Housing & Communities (DLUHC) for research and statistical purposes only.

How do we get this information?

The information is provided via '[Submit social housing lettings and sales data \(CORE\)](#)', a service funded and managed by DLUHC. It collects information on the tenants or residents, tenancy or sale, and the dwelling itself. Some of this data is personal and sensitive, so DLUHC is responsible for ensuring it's processed in line with data protection legislation.

Why do we share this information?

Information collected via CORE is shared with other government departments and agencies such as the Greater London Authority and the Regulator of Social Housing. Data providers can also access data for their organisations via the CORE service. Data is only shared for research and statistical purposes.

How does this affect you?

Information sharing will not affect your benefits, services or any treatments you receive. It's anonymous and handled in accordance with the law. We collect and share your information to help us better understand the social housing market and inform social housing policy.
